INTRODUCTION

About the Youth Programs Directory

Welcome to the New Orleans Youth Programs Directory! This guide serves as a resource to connect youth, their families and the community to the youth-serving programs available in New Orleans. Our youth deserve every opportunity to learn, grow and lead, and this directory will help them make informed decisions about which programs are best suited for them.

The New Orleans Youth Alliance (NOYA) is the youth development intermediary for the Greater New Orleans area. NOYA works to cultivate a system of high-quality, well-resourced youth development organizations that center youth leadership and racial equity in their work with young people. NOYA achieves its mission through three key areas of service: program quality and professional development, policy and advocacy, and organizational effectiveness.

Many people of color and their families in the Greater New Orleans area do not have access to programs that address their full mental, emotional and physical health. This prevents people in our city from living fully healthy lives and weakens our communities. Because of this, IWES works with communities, schools, individuals and organizations to provide tailored health and wellness services that address this lack of health options and access. We combine advocacy, health education, research and direct services to improve wellness in local communities. Ultimately, when New Orleans is a city that puts health first, our people live happier, more resilient lives and our communities will be stronger!
